

Have you ever gotten a tattoo?  
This snake tattoo I have is a beauty, it cost me a fortune.  
People stop me in the street about it. The artist was a real pro.  
He sterilized everything...at least I thought he did.  
And then I found out last year that I have Hepatitis C, not because he reused the  
needles but because he reused the ink! Hard to believe. I know.  
So anyway I just started treatment for my Hepatitis C and I know I have a chance  
to overcome it. Get yourself tested.  
Because once you know, you can start to fight back.
